GENERAL MERCHANTS - RED DEER.

## DOMINION DAY.

### Red Deer Will Hold Monster Celebration.

Everything is being done to make the grand celebration in Red Deer, July 1st, a success. New attractions will be added, which will eclipse, it is claimed, all former efforts.

Everybody is invited from the surrounding districts to spend the day in town and take part in the big demonstration in the morning, when a parade of children and probably a trades procession, headed by the band, will take

place. During the day there will be football and baseball games, trap shooting, horse racing, military manoeuvres, cadet marching, athletic sports. Every thing will be done to make the day a pleasant one. The Light Horse will be a prominent factor in the day's sport. Music by the Red Deer brass band. Keep your eyes open for full program which will be out in a few days.

## BYLAWS CARRIED.

### Almost Unanimous Vote.

The five by-laws submitted to the ratifiers for their approval on Monday last were carried by an almost unanimous vote. There was no unusual stir, but a very substantial vote was polled and the ratifiers are evidently very well satisfied with the way the Town is being conducted and are strongly in favor of the necessary improvements offered. The total sum asked for was \$13,000, divided as follows:

Cement walks	\$5,500
Additional pump	4,000
Plank sidewalks	2,500
Fire hose	500
Police cell	500

The official vote was as follows:

Cement walks	61 for, 3 against
Pump	59 " 3 "
Plank walks	62 " 1 "
Hose	61 " 2 "
Police cell	59 " 6 "

### Presentation to W. C. Cowell.

W. C. Cowell, who for several years has held the position of Senior Assistant in the Red Deer Dominion Lands Office, and who has recently been promoted to Agent for the Kamloops district, British Columbia, took his departure for his new field of action on Saturday last. On Friday evening, at the close of business, Mr. Cowell was requested to appear in the Agent's room, where the office staff was assembled, and the following address was read by the agent, Capt. Cottingham:

"Mr. Cowell—it is with mixed feelings of sorrow and joy that we are assembled here to bid you a formal farewell. We wish to congratulate you on the honour bestowed on both yourself and the Red Deer office by the Department, in selecting you from amongst the many applicants for the position of Agent of Dominion Lands for the Kamloops District, in British Columbia. We realize that the selection is a tribute to your worth, and that diligence and ability are, at times, recognized and rewarded, even in the Civil Service, and although we exceedingly regret your departure from amongst us, we rejoice to know that the Department has recognized your ability and sterling worth, in selecting you for so important a position, and as tokens of our friendly feelings, we ask you to accept this small souvenir, and trust that when the day's work is over, and you are enjoying your evening pipe, you may think of us, and associate the gift with many happy moments spent with the Red Deer Dominion Lands office staff. In bidding you goodbye, we assure you, Mr. Cowell, that your estimable wife and young daughter, carry with you our warmest wishes for your future success and prosperity."

W. H. COTTINGHAM, Agent.  
W. H. HANNA.  
A. E. CHAPPEL.  
S. M. ROBERTSON.  
W. CAMPBELL.  
M. YOUTMAN.  
S. M. BANNERMAN.  
W. D. MAGER.  
E. ROBINSON.

The souvenir, which consisted of a beautiful and valuable smoker's set, together with a copy of the address, was then handed Mr. Cowell, who in reply expressed his surprise and pleasure at the thoughtfulness of the staff in presenting him with such a kindly address, and valuable and appropriate gift. He would ever remember the many pleasant days spent in the Red Deer office, and although he knew his shortcomings, he had, at all times, the best interests of the office and staff at heart. His feelings were also of a mixed nature, as for many reasons he regretted severing his connection with the town and office, in which he had spent so many happy days, at the same time it could not but be a source of deep gratification to realize that he had been selected for so important a position as agent for the Kamloops district. He would always be interested in the success and prosperity of the Red Deer office staff, individually and collectively.

### Harry J. Usherwood Killed in Calgary.

A fatal accident occurred at Calgary on Thursday afternoon last, when Harry J. Usherwood, the 17-year-old son of J. A. Usherwood, who was employed by P. Burns & Co. as elevator boy, fell down the shaft, four stories high, fracturing his skull and dying from his injuries on Friday. It is supposed that he stepped on a plank at the edge of the shaft which he thought was nailed down but which was loose. The lad was a member of the Red Deer Cadet Corps and a detachment met the train Saturday and escorted the body to Stone's undertaking parlors. On Sunday afternoon the funeral to the cemetery was largely attended, the casket turning out in full force. In firing a volley over the grave one of the horses became frightened and damaged the buggy to which it was hitched.

### Clearview Picnic.

Rather a slim crowd turned out to the picnic until Red Deer School came out in force, bringing a basketball team and a baseball team with them. The Clearview girls have only just started playing basketball but they certainly have the makings of a good team. Though the Red Deer girls won from them 13-5 they played a steady game, Jennie and Gladys Trimble and Marion White being especially good. The baseball boys then played, the Red Deer High School team playing the locals. In the matter of size Clearview certainly had the lead but that did not seem to make much difference when the game started. By the third innings Red Deer had 4 runs and Clearview also scored 4 runs by knocking the ball over the fence. After that it was Red Deer all the way and at the end of the 6th, when the game closed, the score was 15-5 in favor of Red Deer. P. Smith pitched a good game for Red Deer and for the first innings or so F. Johnson pitched well enough for Clearview. Parker was umpire and gave some rather rank decisions. While the boys were having supper the Clearview girls decided to have revenge by beating the Red Deer girls at baseball but in one innings they were only able to make eleven runs off the outcast Mabel battery while the Red Deer girls made 17 in their inning. Red Deer also picked up a football team and played the locals. The game was in Red Deer's favor until after half time when the ball went broke, no goals being scored.

## THE ALBERTA CENTRAL

### Premier to Drive First Spike.

The Edmonton Bulletin contained the following important item of news to Red Deer on Monday last:

Ottawa, June 19.—Sir Wilfrid Laurier will in all probability drive in the first spike in the Alberta Central Railway, the approval of the route of which has been given by the Railway Commission.

The proposed railway will run from Red Deer to Rocky Mountain House, Alta., with a line to Moose Jaw. The contract for the first seventy miles of the road has been let and it is proposed to have Sir Wilfrid drive the first spike, probably at Red Deer.

### C. N. R. Coming

Mr. Macleod, general manager of the Canadian Northern railway said to a reporter in Calgary on Friday night last that the line from Edmonton to Calgary through Red Deer will be built just as soon as possible.

He also said that several parties of C.N.R. engineers are now engaged in surveying a proposed line from a point on the Vegreville to Calgary branch, south of Stettler parallel to the C. P. R. to cross the C. & E. at Lacombe.

### District Court.

Judge Lees held district court on Monday last and there were several cases disposed of. Works vs. Webster was perhaps the most important. Webster shot himself in the foot last winter and Dr. Works attended him. Webster claimed he was not properly treated and came to Dr. George for treatment. Works sued for services, and Webster entered counter claim for damages. The case went against Works, who had to pay costs of court.

### Gaetz Valley.

Dr. C. N. Anderson, M.P.P. of Leamington, Ont., after spending a few days with his relations here, left on Monday to attend the land sale at Ponoka, after which he returns east. He left his practice in charge of Roy A. Smith.

Larue Smith is off for a couple of weeks to B.C.  
Mr. G. E. Graham, who has been our minister since last fall, is leaving for the Stettler district. His work has been much appreciated and we wish him continued success.

### VERMILION.

A mighty effort is being made to save Premier Sifton in Vermilion, and panic prevails in the ranks of the machine politicians. All the big guns of the Liberal party are rushing into the riding. Dr. Clark went up Saturday to give a hand, and Hon. Duncanson Marshall will also take a hand in the fight. A very strong opposition has developed, the Conservative candidate being a prominent farmer of the district. When it comes to Dr. Clark, "the farmer," as he delights to call himself, supporting a brother farmer or a member of the political machine, the farmer has to take a back seat every time.

### MR. RILEY.

No one seems anxious to take up the gauntlet thrown down by E. H. Riley, in Gleichen. Mr. Riley resigned as a protest against the machine methods introduced into provincial politics by the arbitrary selection of Mr. Sifton to the Premiership without giving the legislature or the people an opportunity to express an opinion on the question. He has dared the Premier or any other man to run against him and test the feeling of the people on the iniquitous deal, but there is deadly silence on all sides. He so far has the field to himself. Although Mr. Riley is a Liberal, still he is not a honest government and opposed to the present administration, and should not be opposed by the Conservative party.

### A Neglectful Young Man.

Ottawa, June 30.—W. E. Knowles, a young Saskatchewan Liberal representative, is somewhat of a gay spark. He is fond of good company than attending to his duties in the House. But he plays a certain game very astutely, which may be smart politics, but does not look well in a man who was bred for the church, where honor is generally a consideration.  
 For years he has had on the order paper of the commonsense resolution calling for the reduction of the tariff duties on such commodities as are the necessities of the agricultural classes. This is a good bid for votes, and he used it effectively during his last campaign. He was able to point proudly to this resolution printed in bold type on the record paper of parliament and describe it as his own. The farmers of the west thought him a great fellow, and gave his political opponent, Mr. Wheeler, a good thrashing.  
 A little examination of this young man's tactics will show that he is nothing more or less than a dishonest party trickster. Take this session as an example. On the very first day he placed this resolution on the order paper. Being a supporter of the government he can get in ahead of any Opposition member, and once this question is on the order paper it cannot be brought up in the house or referred to by anybody else. This is his game. Mr. Knowles has no more intention of demanding that the government reduce the duty on the necessities of the farmers than he has of jumping over the moon. This same resolution has been on the order paper not only one whole session but four sessions, and he has said not one single word in favor of it. The only thing he has done has been to prevent anybody else saying anything in favor of it. The government has no desire to do anything for the farmer in this line, and Mr. Knowles is doing the government a service by preventing discussion, while he gets the credit of having this resolution of his to point to.

**Government Feels Shaky.**  
 Cabinet Ministers Will Do A Lot of Campaigning  
 Ottawa, June 20.—The tremendous activity of the cabinet ministers in the country this summer is causing a good deal of comment. Evidence accumulates that the government feels very shaky on the subject of the next general election. It is surprising that it received a severe scare during the last contest; about midway in the campaign the inner circle felt very uncomfortable and it was by a variety of steps taken in the last few days that it won success. Even so it scraped through on a smaller vote than is generally believed; less than half the total vote was cast for straight Laurier candidates, and the vote stood: Liberal 557,644; Conservatives and Independents, 588,440. An alteration of a very few votes would have made Mr. Borden premier.  
 From now on, it is learned, the administration of public business is to take second place; and the primary energies of the government are to be devoted to the task of surviving. Almost the entire cabinet is going electioneering. As is well known, Sir Wilfrid Laurier is to tour the west, accompanied by F. M. Macdonald, the principal blocker, and F. F. Pardee, chief whip and champion of the St. Lawrence Power Transmission Company. Simultaneously Mr. Oliver has gone west to devote attention to the wilder and less accessible constituencies in the north. Reports from the Yukon are so disturbing that he will visit Dawson, even though Mr. Templeman was there last year. It is also expected that a third minister will make his appearance in that corner of the country next summer, so carefully are the single constituencies looked after.  
 Mr. Templeman has left to spend three months in organization work in British Columbia, where something evidently is badly needed.  
 In Ontario Mr. Graham and Mr. King are to make another tour with the object of following Mr. Borden and seeking to lessen the results he obtains. In Quebec Mr. Borden is to make a round of the constituencies; while Mr. Fielding, on his return from the Old Country, is expected to do some campaigning in Nova Scotia.  
 This is a fairly good program for one summer midway between elections. It shows that from now onward, Dominion politics

### Local & General

Red Deer Photo Studio is open all day July 1st.—W. B. Falkner.

Red Deer will have a good day of sports on July 1st. Be on hand and make the day a success.

Penhold citizens hold a big day of sports to-day. All kinds of games are on the programme.

The Hospital Ladies' Aid hold their garden party to-morrow night. Supper served on the grounds.

Teddy Plumb is one of those who got big figures for his Short-horn bull at the Lacombe sale. His bull was first in its class and sold for \$1350.

J. D. Tripp, one of the professors of the Toronto Conservatory of Music, will be here on July 2nd to examine Miss Michener's pupils. He will be the guest of W. E. Payne during his stay.

Bruno Krause has rented the stopping place at Eekville from Mr. Snell, and will take charge on July 1. Mr. Krause's name and experience is a guarantee that the wants of travellers will be well looked after.

For Dominion Day, July 1st, the Canadian Pacific Railway Company announce a rate of fare and one-third for the round trip. Tickets will be on sale June 29 to July 1st inclusive; final return limit July 4, 1910.

Elise James and family, of Willowdale, were burnt out a short time ago, losing all their clothing and household effects. Mr. Sarscock noticed the need and brought out his family from Ontario this spring and was living on the old C. J. B. Ward homestead. The neighbors took in hand the raising of money for the distressed family, and from \$200 to \$300 was subscribed by a generous countryside.

 (Crowded out last week)  
 Miss Florence Banton returned home from teaching last week.  
 Bert Banton is taking a trip to Stettin.  
 Hughie Kirkland has gone to his homestead at Leslieville.  
 Mrs. W. H. Atkins is seriously ill at the home of L. Morton in Red Deer.  
 Rev. Barner occupied the pulpit on Sunday, June 12th.  
 A son was born to Mr. and Mrs. Witthel, formerly of Poplar Ridge, at Calgary May 11th.  
 Government road work is being resumed in the district; very good news to all.  
 Fred Fisher had a birthday party at his house Saturday, June 4th.  
 Mrs. Banton has been visiting friends in Calgary for a couple of weeks.  
 We understand Mr. Boswell has changed his mind about buying Fred Fisher's quarter section and instead has taken up a homestead at Leslieville. Good thing for Boswell but what about Fred? Better luck next time, Fred.  
 Three double seats have been added to the school. Hope they will be used some time in the future.  
 Mrs. Rogers was home over Sunday.  
 Miss Ada Archibald has gone to work in Red Deer.

**No "Flying Start" required with this Mower**

If your mower isn't a Frost & Wood, very likely you have to back it up several feet and get a "flying start" before the knives will cut. That is because it is made on the External Gear principle.  
 Now, with the Frost & Wood No. 8 Mower the knives commence cutting the instant the horses begin to move. That is because the No. 8 is designed on the Internal Gear principle.

**Frost & Wood No. 8 Mower**

We could tell you here the difference between External Gear Mowers and Internal Gear Mowers, but it would require a lot of space, and we can explain the difference more readily if you'll drop in and see us. We also want to show you the Large Bearings used in the Stay-tight connection between Cutter Bar and Main Power Frame, as well as the Double Brace used to protect the working parts from jars and jolts—and several other features exclusive to the Frost & Wood No. 8 Mower. Call and see us at your earliest convenience.

## Two Years Sickness in the Average Life

Much of this is avoided when the blood is kept rich with DR. CHASE'S NERVE FOOD

It is said that the average man or woman who reaches seventy years of age has had two years of sickness or ten days for each year.

Today medical experts are studying how to avoid this and the general opinion seems to be that every effort should be used to keep the blood rich and healthy by using such treatment as Dr. Chase's Nerve Food.

There are always plenty of indications to warn you when the blood is getting weak and watery and the nerves exhausted.

You are easily tired, both mentally and bodily, you feel down-hearted and discouraged, digestion fails you, you have headaches and become irritable and easily annoyed.

In this condition you easily contract colds, pneumonia or fever of some kind and are not able to throw them off as you would if the blood were rich and the body in vigorous health.

**They Were Sold**  
A man engaged in buying a necktie for himself turned to the press and over, and at last laid aside two or three not worthy of consideration. The salesman picked out one of the rejected ties and placed it in a separate box. The buyer, according to the New York Sun, asked if the rejected tie was the one with those he was looking at by mistake.

"Oh, no," was the response, "but we have orders when five or six men turn down a tie to take it out and put it aside."

"What becomes of them?" asked the other.

"We sell them to women who come in here to buy ties for men."

As a vermillion there is nothing so potent as Mother Graves' Worm Expeller, and it can be given to the most delicate child without fear of injury to the constitution.

Uncle Hiram—Come out and visit us some time about the time of huckleberries.

City Nephew—Oh, you can't fool me, uncle. I may be in the neck and in the country, but I know blarney well that he can't.

Rub it in for Lame Back—A brisk rubbing with Dr. Thomas' Electric Oil will immediately relieve the pain and will penetrate the tissues and bring speedy relief. Try it and be convinced. As the liniment sinks in the pain comes out and there are ample grounds for saying that its touch is magical, as it is.

An Iowa woman aimed at a dog and shot her husband in the neck. No woman should have a revolver, a dog and a husband at the same time.—Washington Star.

**SOFT, WHITE HANDS**  
May be Obtained in One Night

For preserving the hands as well as for preventing redness, roughness and chapping and imparting that velvety softness much desired by women. Cuticura Soap and Ointment by Cuticura Ointment, is believed to be superior to all other skin soaps. For those who work in corrosive liquids or in occupations which tend to injure the hands, it is invaluable.

One Night Treatment—Bathe and soak the hands on retiring in a strong hot, creamy lather of Cuticura Soap. Dry and anoint freely with Cuticura Ointment. Wear during the night old gloves, to protect the clothing from stain. For red, rough, cracked hands, dry, fissured, itching, feverish palms, and shapless nails with painful finger ends, this treatment is most effective.

**\$100—REWARD—\$100**

The readers of this paper will be pleased to learn that the cure for the one dreaded disease that science has been able to cure in all its stages, and that is Catarrh of the Bladder, is the only positive cure now known to the medical fraternity. Cuticura being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have but one faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

**WESLEY'S START.**  
How the Great Methodist Commended His Field Work.

Here is John Wesley's account of how he began field preaching and overcame his reluctance to do so.

"I reached Bristol, and met Mr. Whitefield there (March 31, 1739). I could scarce reconcile myself to this strange way of preaching in the fields, which he set me an example of. I was, however, very loath to do so, but I was so much moved by the saving of souls almost a sin if it had not been done in a church."

"April 1.—In the evening—Mr. Whitefield being gone—I began exhorting our Lord's servants on the Mount—some of the brethren preceded field-preaching, though I suppose there were churches at that time. Also to a little society which was accustomed to meet once or twice a week in Nicholas street."

"Monday, 2nd.—At four in the afternoon I submitted to be more vile, and proclaimed in the highways the glad tidings of salvation, speaking from a little eminence in a garden adjoining to the city. I was so much moved by the saving of souls almost a sin if it had not been done in a church."

"Tuesday, 17th.—At five in the afternoon I was at a little society in the Back Lane, where I was much moved by the saving of souls almost a sin if it had not been done in a church."

PASTOR RUSSELL.  
HOMEWARD BOUND

"As the waters cover the great deep" (Isaiah xl, 9).

Pastor Russell is returning to America in good condition after having addressed the public of Great Britain, Ireland, Germany, Warsaw, Russia, Rome and Jerusalem—in all forty cities. His last audience was at London, about 7,000, with Glasgow a good second.

Monday, May 29.—As I look abroad and see water every where, without a speck of land in sight, and as I reflect that I am passing over varying depths, some of which are as great as five miles, I am reminded of the promise in the Lord's Word that ultimately the whole earth, the world of mankind, shall have such abundant knowledge of the Creator and the Redeemer, as to be fully instructed by the depths of the sea. I have therefore chosen as my text the words, "The earth shall be full of the knowledge of the Lord as the waters cover the sea," remember also my very similar promise by the Lord through the Prophet (Habakkuk II, 14). "For the earth shall be filled with the knowledge of the glory of the Lord, as the waters cover the sea."

peel Age and its consumption, which he styles "The harvest—the end of the age." His word: respecting the separation of wheat from the tares is that the wheat shall be gathered into his barn—changed from the earth to the heavenly nature, and he adds, "There shall the righteous shine as the sun in the Kingdom of their Father." That hath an ear to hear, let him hear.

The figure of the rising sun scattering the darkness, ignorance and superstition of the world, harmonizes with the other picture, which represents the Kingdom of God superseding the Kingdom of Satan, and those deluded by Satan, styled in the Scriptures, the kingdoms of this world.

We may well sympathize with our forefathers, to whom it was not granted to see as clearly as we may now see the glorious fulfills of the Divine purpose to eventually enlighten the whole earth, by causing the knowledge of the glory of God to fill the whole earth as the waters cover the great deep. To us, therefore, it is especially a privilege to hear the words, "Be ye glad and rejoice for ever in that which I create. For behold, I create a new heaven and a new earth, and the former shall not be remembered, nor come into mind."

Lord picture the new dispensation in graphic language. The new heavens symbolically represent the Church in its new and glorified condition, exercising prophetic control over the state. ## Ravages of Consumption

ALL HER RELATIVES HAD DIED OF CONSUMPTION

In the year 1890, 18 years ago, Mrs. C. C. Capen, of Boston, Mass., was a consumptive. All her relatives had died of consumption, and when she was a child she was going to the same way.

After a long and painful struggle, she was cured by Dr. T. A. Stocum's Liniment. She writes: "I am now a healthy woman, and I am able to do all the work of a healthy woman."

## THE SITUATION.

The outlook for peace in the Government camp at the capital does not improve much with time. The country at large has had time to think. The more the electors ponder over the acts of the people in charge of the affairs of the province the more dissatisfied they become. We believe that the calling of Mr. Sifton was wholly unwarranted, that it was an act which endangers the people's rights and tends to undermine representative government. It does neither the party in power, nor the country, credit to turn down the men of the party who stood for right and country. Nor does it look hopeful for democratic government when the people's representatives, as well as the people themselves, are ignored, and the representative of the crown chooses a government two of whom are judges and a third an active defender of the iniquitous deal which caused the resignation of the late government.

If the legislature had failed to select a leader who could command a working majority, or if after it had been referred to the electors there had still been a deadlock, then there would have been justification for royal interference but if the representative of the Crown lends himself to the working of a party machine and usurps the prerogative of representative government, we are, as one of our leading papers puts it, "turning back the clock of the people's rights four centuries." The free electors of the west, we prophesy, will not long stand for the present manufactured government.

## CONSERVING FOR CLIFFORD SIFTON.

During the last Dominion election campaign it was shown that Hon. Clifford Sifton had an interest in almost all the available timber limits of the north-west,

disposed of up to that time.

When this became generally known laws were enacted prohibiting the further sale of timber limits.

Then came the agitation for conservation. Hon. Clifford Sifton was the moving spirit. No more timber limits must be sold. We must save what we have left. The prairie provinces must be saved by conserving the timber of the entire eastern slope of the Rocky Mountains. Not only is the timber to be saved but no settlement is to be allowed. But a system of fire guarding and fire fighting is to be adopted to save the timber.

Here is where Clifford Sifton comes in. The greatest foe to those owning large timber limits is fire. They have no means of protecting their property from this danger and often millions of dollars worth of valuable property is destroyed.

Now by the new regulations on the conservation of timber Clifford Sifton has everything to gain and nothing to lose. All the vast timber limits owned and controlled by him will now be protected from fire by the government at the peoples expense, and what is more, no more limits are to be sold, thus enhancing enormously the value of those controlled by Mr. Sifton, who will see that the regulations are carried out to the letter. Clifford has a great head.

## A UNIQUE LIBERAL.

(Toronto News)

Mr. W. H. Cushing, of Calgary, held office in the Rutherford ministry. He saw that a railway project endorsed by the government opened the way for waste and probably for corruption. He protested. When the protest failed to effect a change he resigned. By reason of his personality as well as his facts he gained the support of so many Liberal members that the government was forced into a corner. The crisis was brought on by Mr. Cushing, who emphasized his dislike for jobbery in his own

party by resigning.

This is a unique distinction. So far as known Mr. Cushing is the only official Liberal since 1896 who has ever made an effective protest against misgovernment by his friends. But he was not "loyal" to his chief. He did not bow to the ruling of the party managers. He was an insurgent, and, therefore, according to modern political ideals, he was of all men most miserable. The Liberal organization moved for his extinction. Ottawa managers insisted that he be sacrificed.

The lieutenant-governor, if he had followed the constitutional usage and practice would have waited until Mr. Rutherford's defeat. It was impending. Mr. Cushing could have effected it. The majority of three would have been wiped out very soon. Then, when the prime minister had resigned, the lieutenant-governor should have called upon Mr. Cushing to form a ministry. He was the real opposition leader and he would have had no trouble in finding capable colleagues. But the lieutenant-governor, evidently in accordance with the orders of the organization, virtually dismissed Mr. Rutherford while he still had a majority and brought in an outsider, Chief Justice Sifton as prime minister.

Mr. Cushing did all the work. Mr. Cushing prevented the spoliation of the treasury. But he was not at the back of the machine. Therefore, he is contemptuously thrown into the discard. Organized Liberalism has no use for honest men who have the courage of their convictions. All independence of thought and action must be crushed. Even the king's representative may be used as the tool.

## WHY FARMERS HAVE TO WORK.

Who ever heard of the Dominion Government giving the farmer a bounty on his crops?

The greater portion of the voters of this dominion are farmers, yet they must in many cases, while earning their living

by the sweat of their brow, back up the outrageous bounty system of the government. The following are two parallel cases, taken from an Eastern exchange:

A report prepared by Price, Waterhouse and Co., and summarized in Canada, on the results of three years' operations of the Dominion Iron and Steel Company ending with 1909, shows that the net earnings of the company during that period, aside from the bounties received from the Dominion treasury, were sufficient to pay dividends of nearly 4 1-3 per cent. on the common stock. With Dominion bounties added the net income of the company was, this same authority informs us, equal to 7.69 per cent. on the common stock.

These facts, taken by themselves, are sufficient to show how utterly unfounded was the contention that this infant industry needed the aid of the Federal Treasury in order to enable it to survive. The situation becomes clearer still when certain other facts are taken into account. The earnings of the company during the period under review was very greatly curtailed by the senseless litigation carried on between it and the Dominion Coal Company, and by a prolonged strike of employees in the steel works. With these injurious conditions eliminated, and with a comparatively trifling increase in capital outlay, the output of the Dominion Steel Company, it is expected, will be enlarged by 30 per cent. this year. Under these conditions net earnings on common stock, aside from bounties, should be at least 5 per cent. for 1910.

And now comes the most important fact of all. Most of the common stock of Dominion Steel went into the hands of the original holders at about fifteen cents on the dollar, so that two years' net income, with the help of the Dominion bounties, was sufficient to return every dollar of the original investment and still leave a purely paper capital capable of earning, for an indefinite period, four or five per cent. per annum

So if you make a purchase of \$5.00 you receive 500 votes, and larger amounts in proportion. For Payment of Accounts Votes will be given in the same manner as in the case of Cash Sales.

We have adopted this method because we believe it gives all an equal chance to obtain this Set of Furniture without a single cent extra cost. You can readily see the additional advantage of making ALL YOUR PURCHASES AT THIS STORE. THE MORE VOTES you have the better will be your chance of securing this Prize which is

**WORTH \$35 and Goes FREE to the Winner**

Everyone may enter, and are permitted to present coupons from Advocate of last week as a starter without charge, but only 20 of these will be permitted to be placed to the credit of competing parties. Coupons issued with sales, or payments on account will be on colored paper only. Anyone entering this competition may solicit votes from their friends. There is no limit to the number who may assist any individual competitor.

Be sure you get your votes every time you make a purchase. If you feel you may not buy enough to make a successful running yourself, get your votes and give them to a friend who is in the competition. But if you have the time get into the game yourself, and get all the votes you can from your friends.

## WHY FARMERS HAVE TO WORK.

(continued from page 4)  
even without the aid of a subsidy.

This is repeated the story of the Dominion Textile Company—a company which, as a result of the tariff protection on cotton, was able in two years to return in dividends to the holders of common stock with a face value of \$5,000,000, a sum equal to the price actually paid for that stock. Farmers certainly are easy when they allow a few experts in high finance to thus plunder them through the tariff on the one hand and the bounty system on the other.

Incidentally the fact might be mentioned that in the three years ending with 1909 the Dominion Iron and Steel Company received near \$3,000,000 in bounties from the Dominion Treasury.

## OUT OF THE FRYING PAN.

(Winnipeg Telegram)

The blow has fallen in Alberta and Premier Rutherford's political head is in the basket. All the members to be of the new cabinet are not yet known, but the name of the new premier is known and that is enough, particularly when the Winnipeg mouthpiece of the Hon. Clifford showed such accurate foreknowledge of the Siftonian destiny in Alberta. It looks more than likely that Alberta has jumped out of the frying pan into the fire. The Rutherford government justly came under strong popular disapproval. It entered into a monstrous contract for the construction of the Alberta and Great Waterways railway. It was a contract in which the interests of the province were safeguarded in no single particular and in which the most extravagant wishes of the promoters were acceded to. Such an extraordinary abuse of trusteeship certainly called for the resignation of the trustees. But Premier Rutherford, though a feeble, was not a dishonest administrator. On the whole his government was not a

bad one. It was at any rate much better than might have been expected from the way it was first brought into being. The premier seems to have been a "good easy man" who left a great deal to subordinates and who was apt to trust men in whom it was unwise to repose confidence. If the machinations by which this astounding piece of graft was consummated are ever disclosed to the public view it will be found that Rutherford was more the dupe of intriguers than a participant in plots against the common good.

It is now apparent that Chief Justice Sifton was actively engaged in political manipulation before he left the bench. By a curious coincidence he surrenders the dignity and emoluments of the chief justiceship to take office at a time when the province has \$7,400,000 to spend in the construction of a railway.

It is difficult to see how Alberta under Arthur Sifton's rule can avoid becoming the cat's paw of the more ambitious policy of his brother. He owes his judicial preferment entirely to the Hon. Clifford and it need scarcely be said that the Siftonian henchmen have not been altogether idle of late. A situation has developed in Alberta which the Hon. Frank Oliver has fled to the Yukon to avoid, but which every instinct would prompt the master spider of the Sifton clan to remain at Ottawa to direct, to master and to profit by.

This latest move is just plain Siftonism rearing its malignant head in Alberta after it has been kicked out of Manitoba and discredited throughout the west, acquiring again fresh leverage for its unexampled and far-reaching power for evil. The people of Alberta have exchanged a weak premier who was played upon by a gang of amateur grafters for a premier who is bound to represent a well organized gang of past masters in the art of grafting. They are hardly to be congratulated on the exchange, and as they are an independent lot of citizens they are likely upon the first occasion given to resent it. The late gov-

ernment needed a guardian; the requirement of this one will be a detective.

## New Foot Regiment.

An enthusiastic meeting was held in the Fire Hall on Thursday evening last for the purpose of discussing the formation of an independent company of infantry in Red Deer. Capt. Cottingham occupied the chair and there were nearly 40 present when the meeting opened.

Dr. George read the correspondence that had passed between himself and Lt.-Col. Cruikshanks D. O. C. Military District 13, and it was decided to organize at once so that everything should be ready when the word to start came from Ottawa.

The company was favored with an address from Major Carstairs, of the 101st Fusiliers Edmonton, which contained much helpful advice and was greatly appreciated by all.

The roll was then signed by those present wishing to volunteer, about 30 coming forward, and the election of officers was then proceeded with, the following being chosen:  
Captain—C. P. Mellor  
1st Lieutenant—Dr. George  
2nd "—Dr. McCreight  
Mr. Mellor then proposed a vote of thanks to Major Carstairs for his kind address and to Capt. Cottingham for having filled the chair which was carried.

It was decided to leave the selection of the non-coms. in the hands of the commissioned officers as there were several of those joining who had seen service previously and who possessed efficiency certificates, etc., and it was felt that it would be wisest to have these taken into consideration in the picking of the non-coms.

If the hearty spirit displayed by the meeting can be taken as a criterion Red Deer's infantry have a bright future before it.

At a subsequent meeting the following non-commissioned officers were chosen:  
Sergeants.  
Geo. Bell, late Gordon Highlanders, acting sergeant major.  
Stewart Robertson, late Gordon

Highlander volunteer, acting color sergeant.  
Mr. Evans, late corporal of 8th Royal Rifles, Quebec city.  
R. G. Taylor, late of Middlesex Imperial Yeomanry.

CORPORALS.  
W. H. Hadley, late gunner of Royal Navy.  
H. Pathebt, late Grenadier Guards.  
Mr. Steath, late Royal Horse Artillery.  
S. D. Hayden, late Honorable Artillery Company.  
Wm. Campbell, late Queen's Own Rifles.  
W. F. Tranter.

At the special meeting of the local branch of the U. F. A. held on Friday, at which a considerable number were present and some new members enrolled, it was decided to make a special effort for the advancement of the branch. It was arranged to hold a picnic some time during the summer and a committee was appointed to take charge. All farmers in the district are asked to give their support to the Union. Remember the Association's motto, "Union is strength."

Captain Cettingham's valuable and well-known Irish water spaniel, "Grouse," died Friday night last. "Grouse" will be missed by the citizens of Red Deer, to all of whom he was an object of interest, but the loss to the Captain, whose valued companion and friend he has been for over 14 years, is irreparable.

The annual Presbyterian congregational picnic will be held on Friday afternoon of this week (June 24th) in the Gaetz Park. The entrance to this park is the street between Messrs. H. H. Gaetz and R. L. Gaetz's residences, leading to the river. All families are requested to provide, and take with them, large baskets of provisions. There will be no admission charge, but a collection will be taken up to defray expenses. Come one, come all, and have a good time.

Rev. C. W. G. Moore, rector of St. Luke's church, left for England Thursday last at the close of Synod owing to the illness of his father. He will be away about three months. The services in St. Luke's will be held as usual on Sunday evenings, but the morning services will not be held except when an ordained clergyman takes them. Last Sunday evening Charles Hives, of the Industrial School, took the service and R. E. Fiske, of Hillsdown, will take the service next Sunday evening. Rev. Mr. Dawdney, of Calgary will take the morning and evening services July 3rd.

## SELLING SPECTACLES.

That is quite easy. Anyone can do it, provided a willing purchaser is found. To properly measure a refractive error, and scientifically adjust convex or concave lenses to the eyes, is a different matter. It requires much knowledge, experience and common sense. To claim that one knows all there is to know about this or any subject is rather foolish. It is the record that counts.

Many years' successful experience justifies me in soliciting your patronage.

## Red Deer v. Bittern Lake at Wetaskiwin.

Red Deer won one and lost one against Bittern Lake, which is a pretty good average. Also it would not be sports to beat them two games straight in a strange town. There was some pretty sloppy work in places, but as a whole the games were fast and exciting. Mr. Washburn, the man with the black bat, won his own game in the last inning by smothering out a home run when the score was tied. He didn't have to because there were others to hit in the inning. It would have saved time. In the evening game Losse went in to pitch, although he was very tired. His ball was very effective, but he lacked control, putting four men. His support was poor, and eight runs tallied in the four innings he pitched. Washburn then went in and held them to three runs and three hits. In the 9th inning Red Deer had a batting streak and chances looked good to tie but Martin came in on a black ball the umpire did not see, and was called out. Speesman, of Camrose, and Barrett and Johnson, of Wetaskiwin, played for Bittern Lake.

## Card of Thanks

To the Editor of the News, Dear Sir—Would you kindly allow us a little space to thank the people of Willowdale and the surrounding district and also the people of Red Deer for their great kindness to us after getting burned out on Saturday evening, June 11th, when we lost everything in and around the house, except a few little things. We are strangers here as we only came from Ontario last January and we consider that the people of this whole community are worthy of more thanks than we can render them. (Sgd.) Mr. and Mrs. Giles James Willowdale.

You Get Better Results by Using

"Montserrat" Lime-Fruit Juice

In all frozen dishes than by using Lemons. "Montserrat" brings out the natural flavor of other fruit, and is always ready—no trouble—no fuss.

For sale by PARKER'S.

We also have the "SOVEREIGN" Brand. A cheaper Lime Juice, but, in our opinion, equally as good.
